About Seminar

The national conference is promoting the Bridge of Biotechnology in Pharmaceutical Drug Designing and Formulations. This seminar aims to provide the academicians, researchers of various fields like Pharmaceutical science, biotechnology and other disciplines. Also, for industry representatives a forum to share and exchange their research and practical experiences and challenges in development and technological advances in Pharmaceutical research with special emphasis on biotechnology towards development, drug design and formulations. It is intended to provide proper direction and vision to future research for the benefit of mankind. The organizing committee has planned for an exciting and informative program, where students, researchers and leaders in Pharmacy will meet and share their experiences.

About Institute at a Glance

Royal College of Pharmacy was established in the year 2004, by the society of Combined Academy of Technical Education, Raipur. The institution has been approved by PCI, New Delhi & Affiliated from Chhattisgarh Swami Vivekanand Technical University, Bhilai. The institute is located at the heart of Raipur city at its own land with suitable infrastructure. It is well connected through proper roads in all season. It is at 5 km distance from Raipur Railway Station. Institutions such as AIIMS, NIT, Pt. Ravishankar Shukla University are in close proximity to our institution. We are committed to provide quality pharmaceutical education for both Degree and Diploma Courses. Well-equipped laboratory, library and an excellent team of experienced teaching faculty have made it one of the premier institute in Chhattisgarh State.
