About the Conference

The national conference is sponsored by Atomic Energy Regulatory Board, Mumbai on the theme **"Emerging Issues in Safety and Regulatory Framework Involved in Translation of Radiopharmaceuticals Therapies in Clinical Practice"**. This conference aims to provide a platform to academicians, researchers and industry representatives, to share and exchange their research and practical experiences and challenges in development and technological advances in Pharmaceutical research with special emphasis on issues regarding safety and regulatory framework towards Radiopharmaceuticals, Drug Development, Clinical Practice etc. It is intended to provide proper direction and vision to future research for the benefit of mankind. The conference is devoted to current advancement of nuclear science acts as a boon in having a better prospect to understand human disease. The organizing committee has planned for an exciting and informative program, where students, researchers and leaders in pharmacy will meet and share their experiences.

About Institute at a Glance

Royal College of Pharmacy was established in the year 2004, by the society of Combined Academy of Technical Education, Raipur. The institution has been approved by PCI, New Delhi and affiliated from Chhattisgarh Swami Vivekanand Technical University, Bhilai (C.G.). The institute is located at the heart of Raipur city at its own land with suitable infrastructure. It is well connected at 5 km distance from Raipur Railway Station. Other Institutions such as AIIMS, NIT, Pt. Ravishankar Shukla University are in close proximity to our institution. We are committed to provide quality pharmaceutical education for Degree, Diploma and PG Courses. Well-equipped laboratory, library and an excellent team of experienced teaching faculty have made it one of the premier institutes in Chhattisgarh State.

Who can Participate

Academicians, Research Scholars, PG and UG students can participate. The Participants will get new insights & knowledge through close interaction/ discussion with the experts of respective field during sessions.
